# Elevate safety with signage that makes an impact.

Navigating the complexities of health and safety on a construction site is no small feat. Keeping the site operational while safeguarding everyone involved requires vigilance and expertise. In such a critical role, every decision holds significance, like choosing the right safety signs.

At Sitemax, our superior signage solutions elevate safety without compromising on quality. Crafted to endure the rigours of construction environments, our rigid safety signs and premium printed banner mesh will stand the test of time on any project and make an impactful difference in keeping people safe. Elevate your commitment to putting safety first by choosing Sitemax for all your safety signage needs.

## ENVIROSIGN

## Recyclable Signs To Support ESG Targets.

Proudly made in Australia from **100% recyclable** corflute, polypropylene, aluminium, and galvanised steel, our rigid EnviroSigns are UV-stabilised for durability and printed with eco-friendly water-based latex ink. At project end, we ensure responsible disposal with sign removal and recycling services, helping companies reduce their environmental impact, advance sustainability goals, and strengthen their reputation as responsible organisations.

## Backed By Certifications You Can Trust.

EnviroSigns are printed on HP industrial printers using eco-friendly, UL ECOLOGO® and GREENGUARD GOLD certified water-based latex inks, ensuring compliance with strict health and safety standards while creating a safer working environment.

## Keep safety in sight.

Safety signs should be sized based on distance, obstructions, and lighting to ensure readability, with larger signs needed as the distance from the viewpoint increases, as shown in Figure 1.

Figure 1 - Recommended sign sizes based on line of sight distance from eye, adapted from AS1319-1994<sup>1</sup>

<sup>1</sup> Standards Australia, 2023, *Standards Catalogue: AS 1319-1994 REC:2018*, viewed 14 August 2023, <https://www.standards.org.au/standards-catalogue/sa-snz/publicsafety/sf-005/as--1319-1994--rec-colon-2018>
