

EDGE^X

The Strongest, Reinforced Edging for Banner Mesh

EdgeX Solves the No.1 Cause of Banner Failure: *Tearing at the Edge.*

Banner mesh doesn't fail in the middle. It fails at the edge.

Wind load, scaffold movement and constant tension all concentrate at the perimeter — that's often where banner mesh fails first.

EdgeX™ reinforced edging solves this problem by keeping banner mesh taught and intact for longer.

EDGE^X™ ADVANTAGE

- ✓ 3x Stronger Than Traditional Edging
- ✓ 40-60% Higher Resistance to Tearing
- ✓ Better Dimensional Stability Under Tension
- ✓ Improved Durability in All Weather
- ✓ Longer Service Life On Site
- ✓ Disappears Behind Dark Artwork

PRODUCT SPECIFICATIONS

MATERIAL TYPE	PVC Coated Tarpaulin Fabric
BASE FABRIC	Polyester 1000 × 1000 denier 23 × 23 weave
WEIGHT	460 ± 20 gsm
TENSILE STRENGTH	3200 / 3000 N per/5cm
TEAR STRENGTH	400 / 350 N
ADHESION STRENGTH	120 N / 5cm
TEMPERATURE RESISTANCE	-20°C to +70°C
COLOUR OPTIONS	Black or White

When to Choose Black EdgeX

Black EdgeX is ideal for dark backgrounds and darker printed designs, where a clean, subtle edge finish is required.

It is particularly effective when banner mesh is installed against:

- Dark fencing
- Black scaffold components
- Shaded or low-light environments
- Darker printed graphics

Black EdgeX visually disappears into darker backgrounds, reducing contrast and creating a clean, premium finish. This keeps attention focused on the branding rather than the fixings or edge detail, resulting in a sharper overall presentation.

When to Choose White EdgeX

White EdgeX is ideal for light, bright or highly coloured designs, where clarity, colour accuracy and vibrancy matter most.

It is particularly effective when banner mesh is installed against:

- Light fencing
- Bright printed artwork
- Colourful branding
- White or neutral backgrounds

White EdgeX maintains colour integrity at the edges, ensuring graphics stay clean, vibrant and visually consistent across the entire banner. This is especially important for high-impact branding, marketing campaigns and visually led developments.

EDGE X

STRONGER EDGE.
STRONGER BRAND.
