HOARDING & GANTRY SIGNAGE

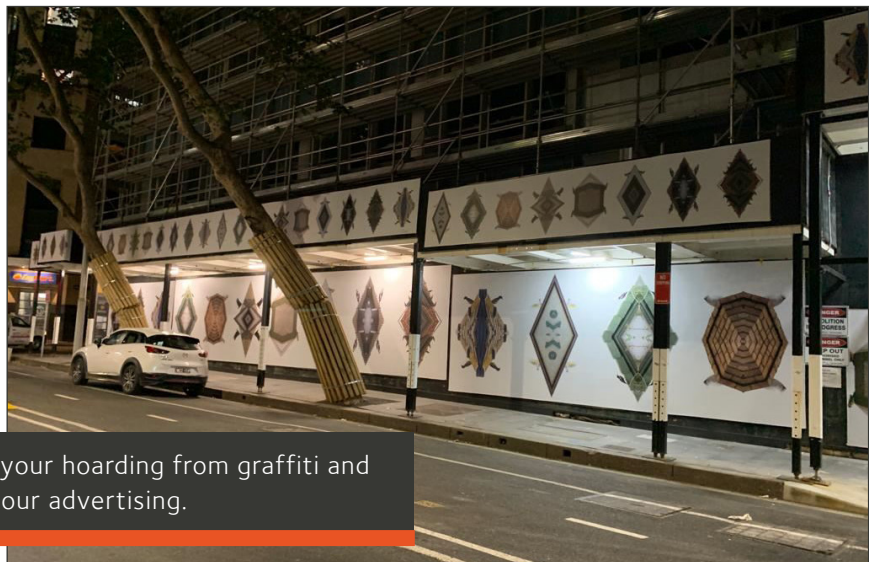

- ✓ Full colour graphics
- ✓ Ideal close to pedestrians
- ✓ Anti graffiti options
- ✓ Highest quality finish

Hoarding & Gantry Signage

At Sitemax we understand that construction site hoarding presents a prime advertising opportunity for your company. Sitemax's Solid Vinyl Hoardings are ideal for either large straight runs of structural hoardings, or hoardings that wrap around sites and travel over steep or uneven ground.

Full colour, high resolution artwork is perfectly presented with a Sitemax's Solid Vinyl Hoarding and this media is ideal to present your project message to all local traffic, pedestrian and bystanders. Whether you want to display your company logo, project information or an artistic design, Sitemax offers a complete hoarding solution from design & manufacture through to installation & removal. At Sitemax, we make it *faster, simpler, easier*.

Choose liquid lamination to protect your hoarding from graffiti and drastically increase the lifespan of your advertising.

Site Gantry signage using keda edged solid vinyl banner.

HOARDING & GANTRY SIGNAGE

Solid vinyl hoardings are ideal for large runs of project or corporate messaging.

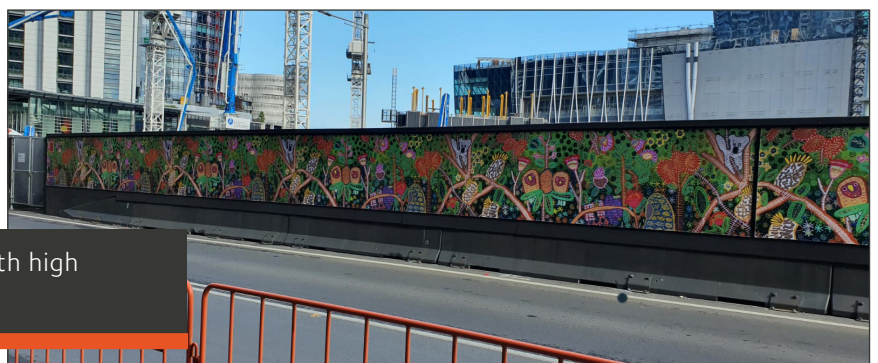

Public and construction site separation can easily be turned into a unique visual display.

Site levels or directional changes can easily be accommodated for.

Deliver upcoming project details with high quality print.

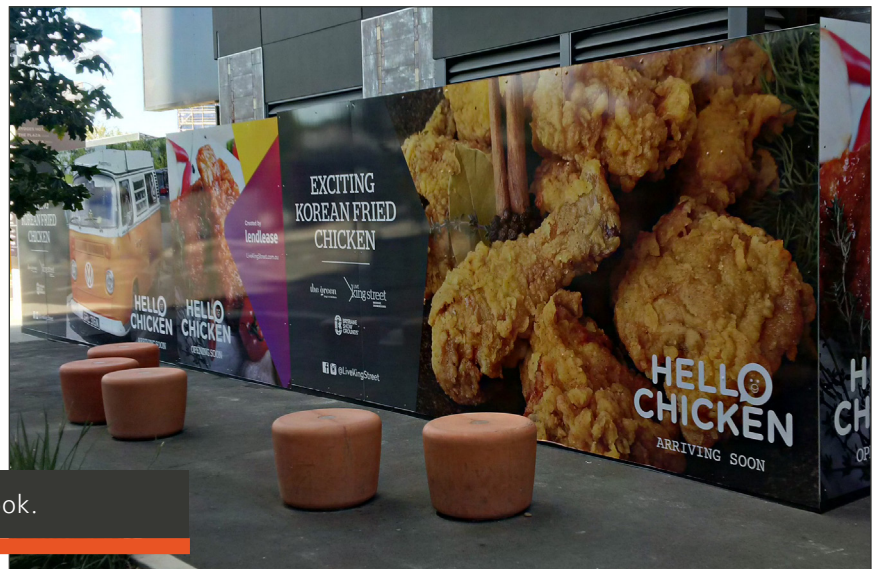

ALUPANEL HOARDINGS

- ✓ Full colour graphics
- ✓ Ideal close to pedestrians
- ✓ Anti graffiti options
- ✓ Highest quality finish

Alupanel Hoardings

Sitemax's Alupanel Hoarding solutions are ideal for covering doors, access points and uneven structural hoardings during your construction cycle. Alupanels can be easily cut around doors and other obstructions to give a continuous & seamless visual effect, without compromising access to the site. You can create the look of what's to come with full colour, high resolution images or realistic textures to create interest before the project has finished.

At Sitemax, we make it *faster, simpler, easier.*

High gloss finish gives a premium look.

Turn blank spaces into interesting spaces.

Use Alupanel to create semi-permanent features.

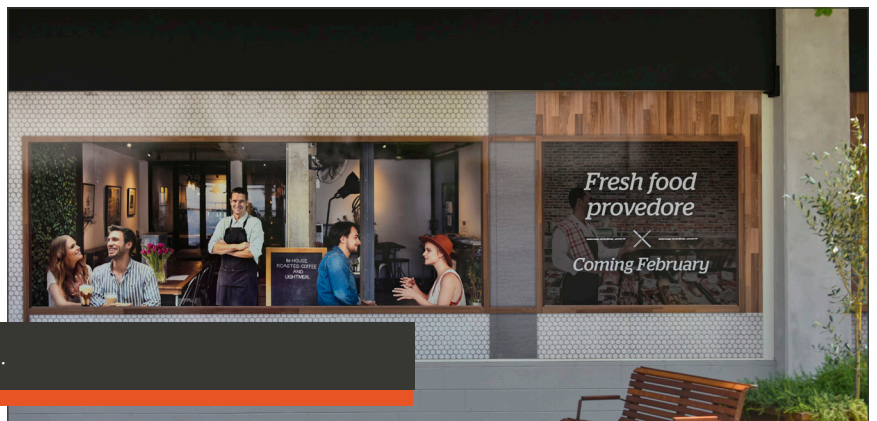

ALUPANEL HOARDINGS

Hi Resolution Graphics mimics textures.

Custom made to cover doors and other site access points.

Mock up of the finished shop fitout.

WRAP AROUND PANELS

- ✓ Installs effectively
- ✓ Privacy during construction
- ✓ Easy to access site
- ✓ Ideal for high profile areas

Wrap Around Panels

Sitemax's unique Wrap Around Panels are perfectly designed to completely cover any temporary fence structure. Why not use our Wrap Around Panels to hide your work zone and utilise the available advertising space for project or event branding? Each Wrap Around Panel is sized as a stand-alone screen and individually designed for your marketing needs. Panels can be easily repositioned around your working area or relocated to provide site access without disturbing your marketing message.

Full length artwork ; seperate panel convenience.

Maximum site branding and versatility.

Easily moved panel wraps for quick site access.

FULL PROJECT FITOUT

External Fitout

With Sitemax's complete range of advertising & safety signage we can offer a full project fitout service. Why not work with Sitemax to design a suite of project & site branding options that covers your next project both inside and out. Whether considering marketing campaigns or rolling out safety programs, Sitemax can be engaged to provide material selections and design support which maximise your message across the full scope of any site. Sitemax can also coordinate with the project delivery team to successfully execute the installation. At Sitemax, we make it *faster, simpler, easier*.

- ✓ Bespoke elements
- ✓ Consistent style
- ✓ Complete solutions
- ✓ Internal and External

Internal Fitout

Working from plans or site measure-ups, Sitemax can work with creatives or design in-house, to bring your concepts to life. Window graphics are perfect for uplifting office environments or creating privacy for meeting rooms.

WINDOW GRAPHICS

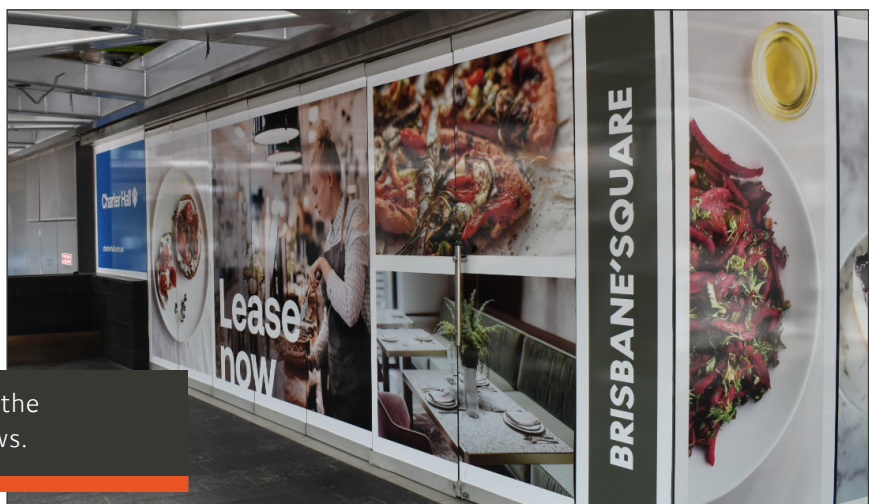

- ✓ Easy installation
- ✓ Privacy during construction
- ✓ Removes without residue
- ✓ Ideal close to pedestrians

Window Graphics

Sitemax's Window Graphics provide high impact and large scale project branding, future establishment advertising or simply freshen up a facade. Window Graphics are also perfectly designed for concealing ongoing site construction & shop fit-outs. Sitemax can work with creative departments or design in-house, to bring your concepts to life. With Sitemax's range of Self-Adhesive Vinyl (SAV) grades window graphics are delivered in full colour through our digital print process. Our SAV is easy to install and leaves no residue when removed. At Sitemax, we make it *faster, simpler, easier*.

Large coverage of full height windows.

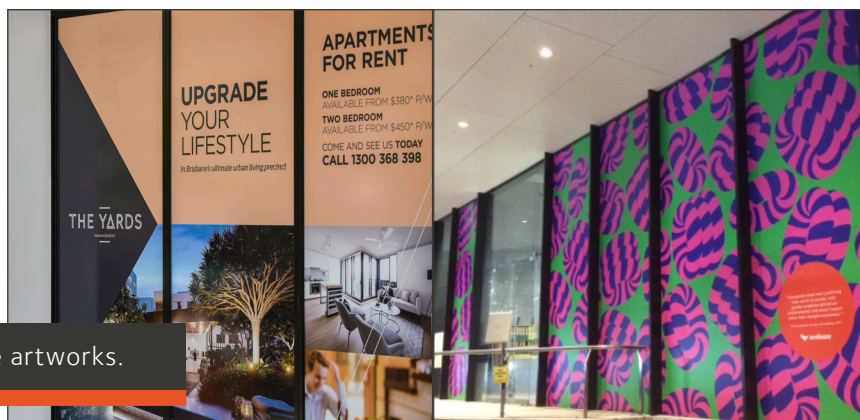

Messaging remains clear even with the complexity of picture frame windows.

WINDOW GRAPHICS

Easily cover windows of any size.

Deliver project messaging or unique artworks.

Consider window graphics when undertaking shop fitouts to block public view.

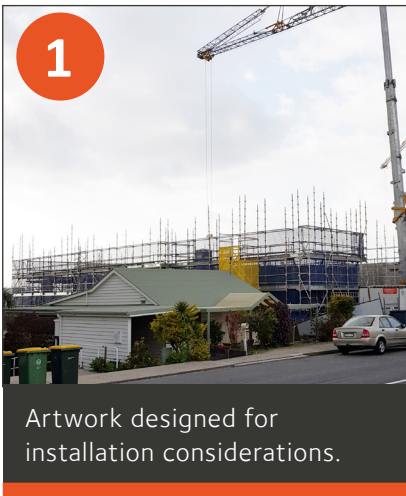

Window graphics easily mount to curved surfaces.

CONCEPT TO REALITY

Early Engagement - Full Design Service

With our in-house design team, Sitemax can work alongside your marketing creatives to design any number of elements that tie in with all aspects of your next construction project. Through early engagement with Sitemax, we ensure maximum on-site impact for your upcoming project through customised onsite branding.

We endeavour to develop and present eye-catching concepts that will ultimately work effectively with your budget, timeframe and site resources. We take great pride in turning these concepts into reality and look forward to delivering eye-catching, high profile branding solutions.

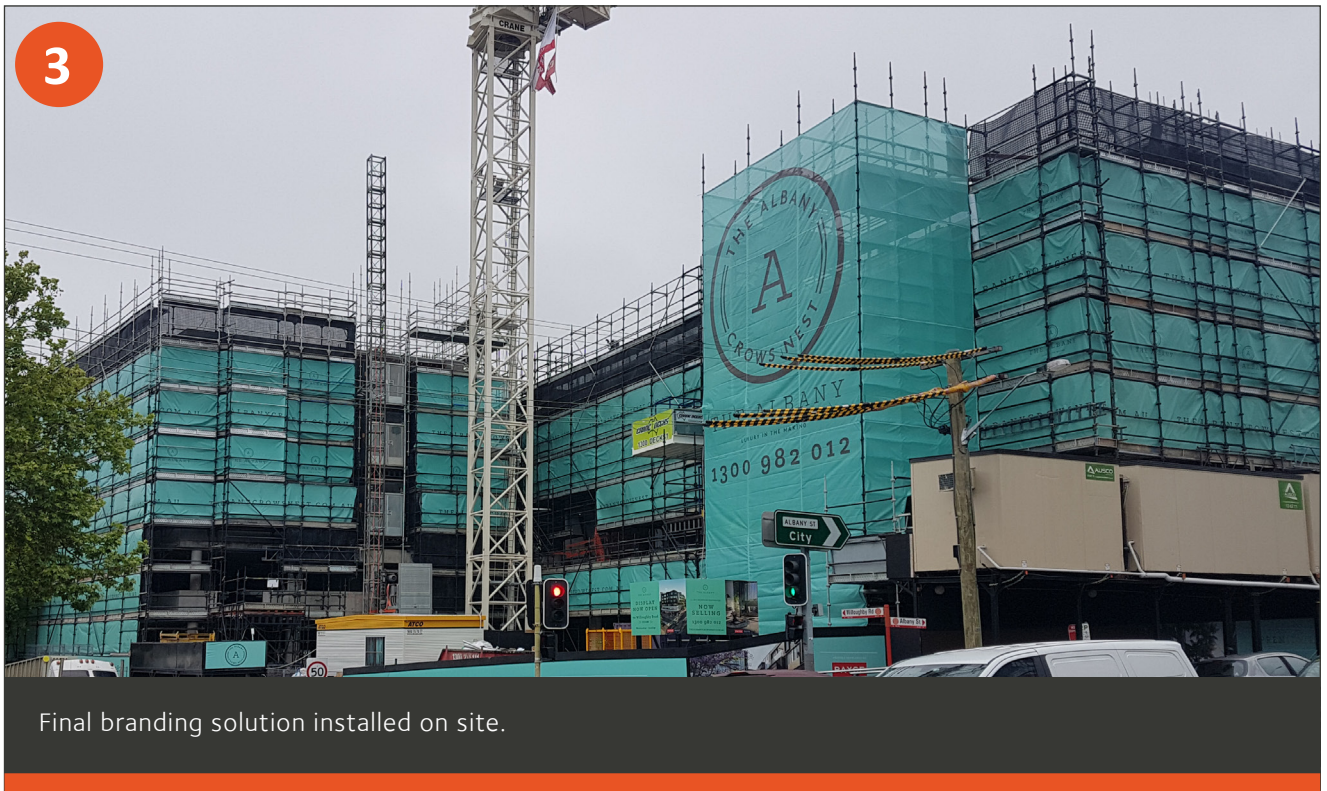

CONCEPT TO REALITY

Existing Projects - Additional Branding Considerations

On-site branding opportunities sometimes aren't always apparent to the developer, construction or marketing team. An initial project plan may not present the true potential for project branding. Site establishment and associated temporary structures may provide ideal locations to promote existing developments.

Given the complexity of many construction projects, Sitemax understands that things also change, and in turn change represents opportunity. With Sitemax's efficient design & manufacturing principles a project proposal can be easily created and executed to ensure that on-site branding can be maximised throughout construction. At Sitemax, we make it *faster, simpler, easier*.

BILLBOARDS

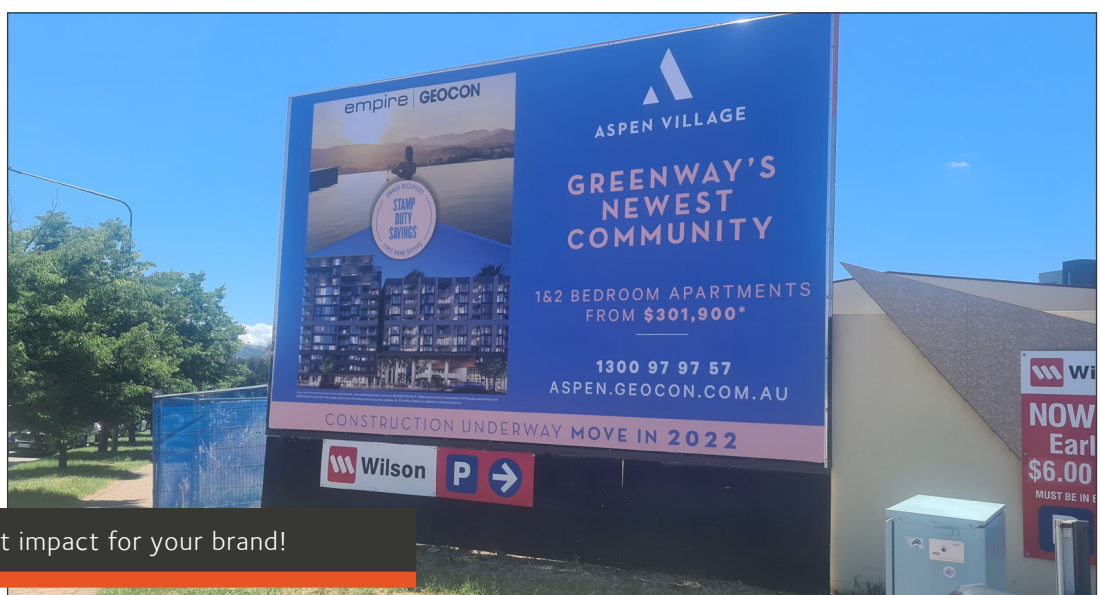

- ✓ 440 or 510gsm solid vinyl
- ✓ Made to size
- ✓ Durable & Weather Resistant
- ✓ Can be illuminated

Billboards

Billboards are an extremely effective site advertising opportunity that shouldn't be missed. Billboards can make your brand or development site stand out from the crowd.

Effective advertising opportunity

Make the biggest impact for your brand!

CONTAINER SIGNAGE

Container Signage

A fast, simple and easy way to erect large format billboards for advertising your development project. Effective advertising made easy!

- ✓ Cost effective & moveable
- ✓ Large surface area
- ✓ Rent or Buy
- ✓ Weather Resistant

Unique advertising opportunity

Make the biggest impact for your brand!

JUMPFORM SIGNAGE

ALSO
AVAILABLE IN **flame** 

- ✓ Solid vinyl banner
- ✓ Prominent position
- ✓ Full colour digital print
- ✓ Keda edged-superior finish

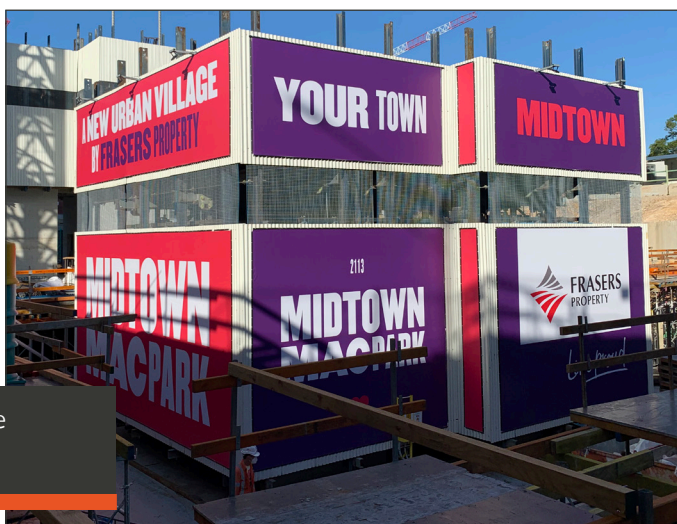

Jumpform Signage

Sitemax's Jumpform signage is an effective way to get your brand easily recognised across any cityscape. Our Jumpform signage solution provides an aesthetically pleasing method to get your construction site branding right from the outset. Jumpform signage is best suited for large bold logos located on all faces of the formwork elements. Builders & developers will benefit by having their message sitting high above the site throughout construction. At Sitemax we make it *faster, simpler, easier*.

Jumpform signage is customisable to work in with the structure and available space.

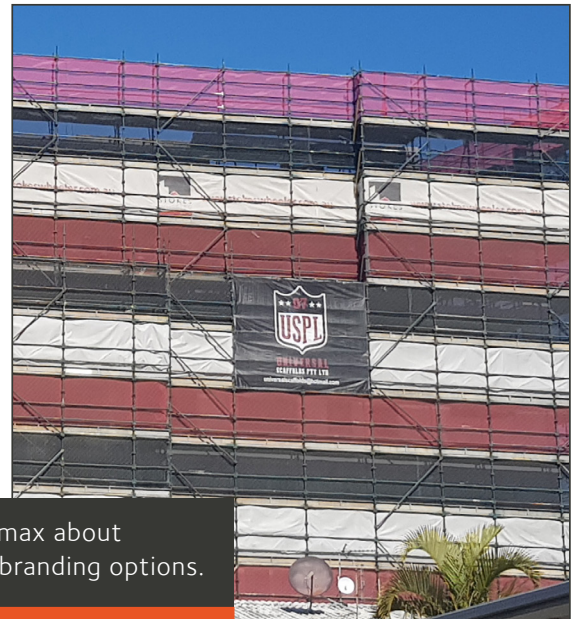

Jumpforms are ideal for presenting 360 degree site branding.

Solid Vinyl banners

Sitemax offer solid vinyl banners in a range of material grades and where required with flame retardant properties. Sitemax's solid vinyl banners can be supplied with rope edges and eyelets at 600mm centres, fold welded or keda edged to allow for superior fixing. Reusable and long lasting with high quality images, these banners can be used on solid hoarding, fences and buildings. At Sitemax, we make it *faster, simpler, easier*.

- ✓ Various grades available
- ✓ Full colour graphics
- ✓ Customised edging options
- ✓ Highest image quality

If a large area is available for advertising, why not talk to Sitemax about combining Solid vinyl banners with Building Wraps and onsite branding options.

Double Sided Vinyl banners

A great option for displaying messages in walkways where the sign can be easily read from either direction. Double sided banners are also often used for wayfinding signage. Pole pockets can be stitched to the top and bottom for easy installation. Different messages can be displayed on each side of the banner.

Double sided banners are great for areas like this where you have a message that people need to see where ever they go!

BANNERS

ALSO
AVAILABLE IN **flame** 

- ✓ Suited for scaffolding install
- ✓ Printed logos or images
- ✓ Ink lasts up to 3 years
- ✓ Custom edging options

Bannermesh banners

Sitemax's Bannermesh range can be designed and sized to suit any potential branding opportunity, whether installing to site hoardings, temporary fences, permanent fencing or building structures. Accessing Sitemax's design and finishing services guarantees you can turn any idea into reality. Sitemax's customised bannermesh banners are the ideal solution for your next unique application. At Sitemax, we make it *faster, simpler, easier*.

Onsite project advertising can be designed specifically for any site.

Branded crowd control barriers are another unique way to present site or advertising signage.

Custom size bannermesh to suit unique structure.

MAXFLOW MESH

ALSO AVAILABLE IN **flame** 

MaxFlow Mesh

Sitemax's MaxFlow Mesh has been specifically designed to replace digitally printed shade cloth for fences and structures where wind loading is crucial. MaxFlow's open weave minimises wind loads and produces a much higher image quality than standard Shade cloth. Maxflow is designed to showcase your brand and keep a cleaner, clearer image for longer.

- ✓ Full colour print
- ✓ Ink lasts up to 3 years
- ✓ Eyelets **900mm** apart
- ✓ 50mm reinforced edge

Strong colours, bold logos – ideal for MaxFlow.

With eyelets every **900mm** fixing is easy.

Great for high wind areas.

SELECT MESH

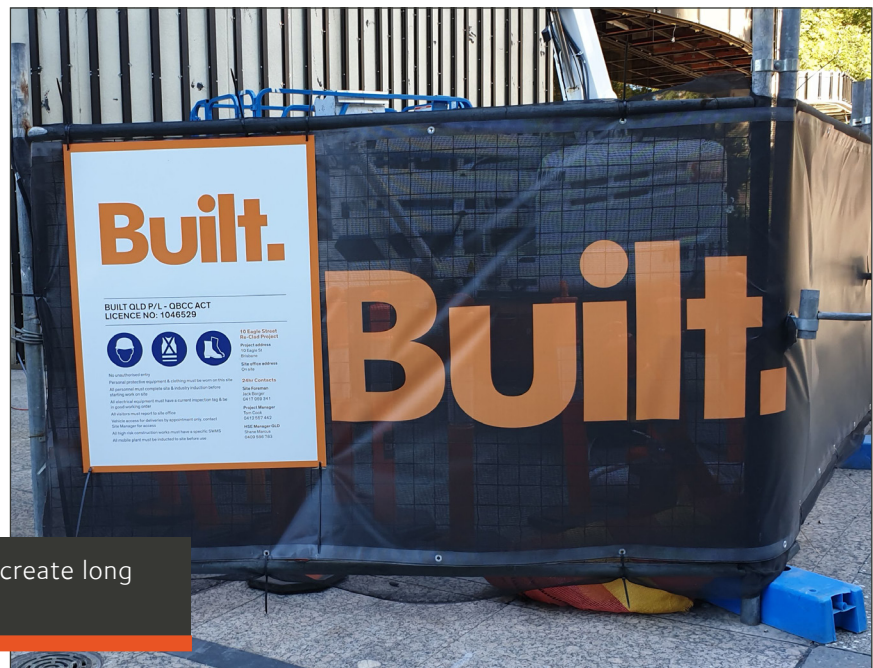

ALSO AVAILABLE IN **flame**

- ✓ Full colour print
- ✓ Ink lasts up to 3 years
- ✓ Eyelets **600mm** apart
- ✓ 50mm reinforced edge

Select Mesh

Sitemax's Select Mesh is high quality, perforated media, specifically designed for digital printing. Whether you use it to display your company logo, or showcase completed projects with full colour graphics and photos, the Select Mesh is our premium solution for your construction site signage and advertising needs.

Banners can be **joined** together to create long runs of site branding.

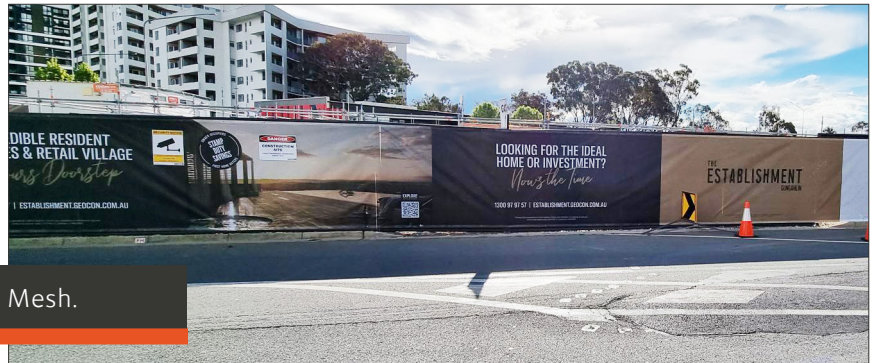

Blocks of heavy text and line art also make an **eye-catching** banner.

With eyelets every **600mm** fixing is easy.

SELECT MESH

ALSO
AVAILABLE IN **flame** 

Vibrant full colour images on Select Mesh.

Full colour graphics digitally printed for high resolution images, logos and text.

Easily produced at large scale for complete building coverage.

Alternate your logo with project details.

PRINTED SHADECLOTH

ALSO
AVAILABLE IN **flame** 

- ✓ 1.8m x 50m rolls
- ✓ Lasts up to 12 months
- ✓ Low cost option
- ✓ Full colour image

Printed Shadecloth

Sitemax's Digitally Printed Shadecloth is a full colour print process that utilises our Siteclad base material. Digitally Printed Shadecloth is an economical alternative to printed Bannermesh materials and is typically selected for short term project or event branding applications. With Digital Printed Shadecloth you can achieve full colour graphics and logos at scale as well as provide on-site & environmental screening. Due to the open weave, Digitally Printed Shadecloth is ideal for high contrast logos in locations where wind loadings are of concern.

Highest windflow available in Site Branding.

Screens and brands your site at the same time.

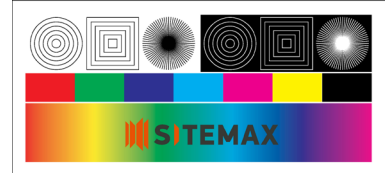

High contrast logos are best for shadecloth, due to its open weave nature.

BANNERMESH

Which Product is Right for Me?

Target artwork

Sitemax's Bannermesh product range has what it takes to capitalise on the branding opportunity that exists on your worksite, development or event. Whether your project is short term or large scale, whether image quality or air permeability is the focus, or flame retardancy is a requirement, keep your brand in-sight, on-site with Sitemax's Bannermesh range. At Sitemax, we make it *faster, simpler, easier*.

ENVIROBANNER

- ✓ Print Quality
- ✓ Improved Colour Vibrancy
- ✓ Weather Resistance
- ✓ Environmentally Friendly

Envirobanner

WHAT IS ENVIROBANNER?

All new PVC free recyclable environmentally friendly banner!

RECYCLABLE

Upgrade your next job to our recyclable bannermesh or vinyl which includes removal of the banner at the end of your project.

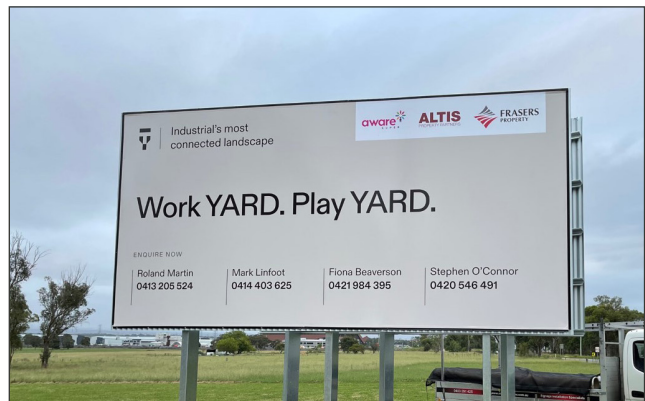

ECO-FRIENDLY LATEX PRINT TECHNOLOGY

Sitemax uses water-based HP Latex Inks which offer health and environmental advantages from our print production to your display.

ENVIROBANNER

ADVANTAGES FOR OUR CUSTOMERS

- ✓ **DIVERTING FROM LANDFILL**
Recycle your banners at the completion of your job to save how much waste goes to landfill.
- ✓ **PVC FREE**
Environmentally friendly production.
- ✓ **LIGHTER WEIGHT**
Compared with usual bannermesh our Envirobanners are lighter weight making it easier to install.
- ✓ **SAVING CO2 EMISSIONS, WATER, OIL**

Imagine your billboards advertising without sending more materials to landfill.

ENVIROSIGN

Envirosign

RECYCLABLE

All of Sitemax's Poly, Corflute and Metal signs are now recyclable. If it has our Sitemax logo branded on it, we can recycle it.

AUSTRALIAN MADE

All of Sitemax's Corflute and Poly materials we print on are Australian made.

ECO-FRIENDLY LATEX PRINT TECHNOLOGY

Sitemax uses water-based HP Latex Inks which offer health and environmental advantages from our print production to your display.

UL ECOLOGO® Certified HP Latex Inks meet a range of stringent human health criteria.^
As of January 2014, HP is the only large format digital printing manufacturer to earn UL ECOLOGO® Certification for latex printing inks. HP Latex Inks are GREENGUARD GOLD Certified to standards for low chemical emissions into indoor air.^

- ✓ Print Quality
- ✓ Improved Colour Vibrancy
- ✓ Weather Resistance
- ✓ Environmentally Friendly

ENVIROSIGN

RECYCLE
YOUR SIGNS
NOW!

Another 7m² of signs not going to landfill today!

ADVANTAGES FOR OUR CUSTOMERS

- ✓ **PRINT QUALITY**
Ability to reproduce more in-depth colours, sharper text and beautiful skin tones.
- ✓ **IMPROVED COLOUR VIBRANCY**
We can provide richer colours utilising a 6 colour printing process. As the ink is water based the finished product will have a similar finish to the material it is printed on.
- ✓ **INCREASE IN WEATHER AND SCRATCH RESISTANCE**
Our inks are printed with an overcoat which, once cured, creates a surface offering unparalleled resistance to scratching and weather elements.
- ✓ **ENVIRONMENTALLY FRIENDLY**
Using certified water-based HP Latex Inks means you are providing Eco-friendly products which are also recyclable.

^UL ECOLOGO® Certification to UL 2801 demonstrates that an ink meets a range of stringent criteria related to human health and environmental considerations (see ul.com/EL).

^^GREENGUARD GOLD Certification to UL 2818 demonstrates that products are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit ul.com/gg or greenguard.org.

3D INTERACTIVE WALLS

- ✓ Attention grabbing
- ✓ Interactive and versatile
- ✓ Custom size and material
- ✓ Unique designs

3D Interactive Walls

Creative signage with unusual texture has a memorable and eye-catching impact. Why limit your concept to a flat surface? At Sitemax you will stand out from your competition with our Three-Dimensional Interactive Walls. Designs can incorporate fixed and moving features along with living elements and in-built lighting. At Sitemax, we make it *faster, simpler, easier*.

3D elements create eyecatching features.

The background can be changed for a new style.

Updated with plywood texture from the stone wall texture.

LENTICULAR SIGNAGE

Lenticular Signage

Sitemax's Lenticular Signage is an effective way of displaying two distinct messages on the same available space. Full colour digitally printed images are specifically created so when aligned onsite, unique project messaging can be seen in either direction to the passer-by. When viewed at the intended angle of the design, the result is a finished product that appears as one continuous image.

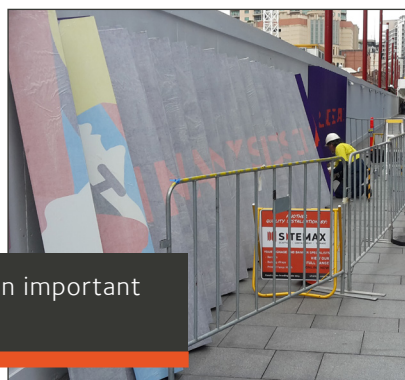

- ✓ Attention grabbing
- ✓ Interactive and versatile
- ✓ Custom size and material
- ✓ Suited to high profile areas

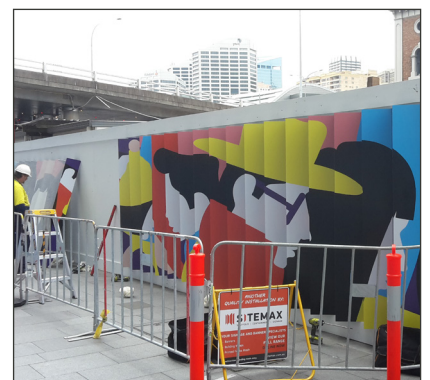

Lenticular viewing right to left.

Lenticular viewing from left to right.

Public safety and traffic control is an important aspect of installation.

3D ILLUMINATED

- ✓ Attention grabbing
- ✓ Day and night presence
- ✓ Fix to hoardings
- ✓ Fix to permanent features

3D Illuminated

Grab your audience's attention and showcase your next project with a custom designed Illuminated sign. Creating a striking night time effect, illuminated signs can be fabricated in almost any shape to remain consistent with your brand image. These solutions can be combined with three-dimensional elements that maintain your project's overall design aesthetics.

Utilising LED technology, illuminated signs can be fixed to structural hoardings or designed as a permanent feature. Illuminated signs are an ideal stand-alone branding solution. Conversely, each design can easily tie in with larger scale branding concepts that incorporate any combination of Sitemax's bespoke signage product lines. At Sitemax, we make it *faster, simpler, easier*.

Completely customisable to incorporate your logo or brand.

Clearly visible day and night from a wide viewing angle and distance.

Incorporate light signage with Green walls.

LIGHT BOXES

Light Boxes

Spark your customers interest and take your project from day to night with Sitemax's Illuminated Light Boxes. Simple but effective, Sitemax's Light Boxes are more eye catching than posters or regular signage. Whether small or large scale, Light Boxes are effective in highlighting graphic elements or providing wayfinding directions on structural hoardings or permanent fixtures. At Sitemax, we make it *faster, simpler, easier*.

- ✓ Attention grabbing
- ✓ Durable signage
- ✓ Highly visible at night
- ✓ Effective advertising

Deliver unique project messages day or night.

Consider displaying project artwork or wayfinding signage.

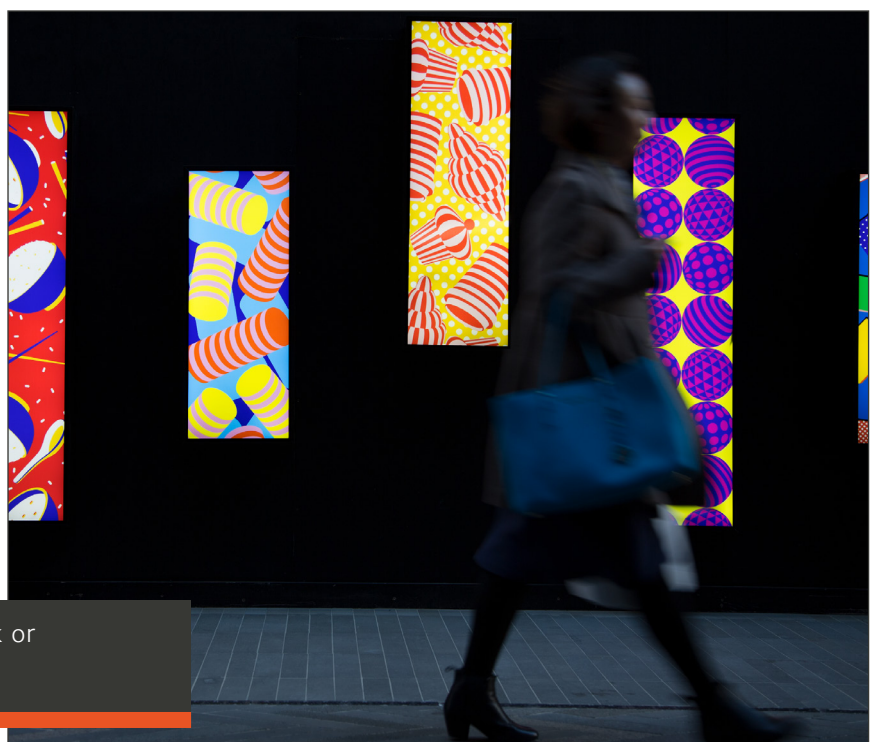

Image courtesy of Houston

INSTALLATION

- ✓ Project Delivery approach
- ✓ From design to removal
- ✓ Full Project Management
- ✓ Consider site maintenance

Installation

Sitemax is a highly service oriented and innovative company that specialises in construction signage and site branding. However we are more than just a wide format printer. Not only are we able to design and manufacture your company's safety messaging and on-site advertising, we can also offer project management and installation services.

No matter how big or small the opportunity, Sitemax have the knowledge and experience to ensure that the initial concept becomes reality. You can be confident that we will successfully manage the whole process from start to finish. Our team are there every step of the way. At Sitemax, we make it *faster, simpler, easier.*

Building Wraps

Sitemax understands your brand is important and can help promote your company's logo and message with visually effective designs using high-quality images. Making use of the advertising space on your construction site is a prominent and effective marketing tool to get your message across.

Building wraps maximise the impact of on-site branding. With our unique system, a building can be wrapped in layers. We minimize installation resources and offer the flexibility to 'grow' the wrap and "unveil" your message as the scaffolding rises with the construction. Sitemax's building wraps are available in a range of materials & with flame retardant properties where required. Keep your branding insight, onsite with Sitemax's advertising solutions.

- ✓ Contact us for options
- ✓ Wrap as site increases
- ✓ Full range of colours
- ✓ Minimal labour required

Full building wrap installed by X-Cel Construction Services.

Alternating logos with correct positioning on site make for an eye-catching way of advertising.

TEAR DROP BANNERS

- ✓ Custom sizes available
- ✓ Full colour print
- ✓ Double sided
- ✓ Various types of bases

Tear Drop Banners

Sitemax's Tear Drop Banners are lightweight and easy to set up anywhere at anytime. With a large array of sizes, shapes and fixtures, Sitemax's Tear Drop Banners are designed for any application you can think of. Easy to set up and clearly visible to the road and pedestrian traffic, teardrop banners are great for promoting events, project messages, drawing attention to an office or site compound. They are increasingly popular to promote a one off showcase or raise awareness of new WH&S campaigns. Sitemax's teardrop banners are high quality vibrant full colour print designed with a long lifespan. At Sitemax, we make it *faster, simpler, easier*.

Double sided printing for viewing from both directions.

PULL UP BANNERS

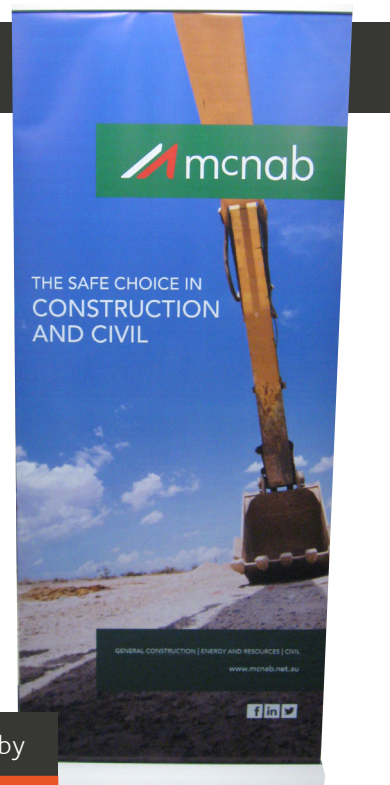

- ✓ 2000 x 850mm
- ✓ Fully customisable
- ✓ Good stability & durability
- ✓ Primarily used indoors

Pull Up Banners

Limited floor space? Pull up banners only use a small amount of floor space yet with a marketing area of nearly 2sqm will be sure to make a large impression.

Pull up and set up your advertising in a matter of seconds! Good stability and durability.

Includes complimentary carry case.

Easily catch the attention of passers-by

FOAM BOARDS

Foam Boards

Our custom foam board signs make it easy to create durable displays that look great use after use. These signs are more substantial than your average posters, but are still lightweight and portable enough to set up and take down in seconds.

Whatever your preference, our UV printing technology will give your foam boards a vibrant, professional look you will be proud to show off!

- ✓ Available in 3mm & 5mm
- ✓ Great for indoor use
- ✓ Rigid & Lightweight
- ✓ Fix using double sided tape

FLOOR GRAPHICS

- ✓ Non-slip laminate
- ✓ Durable
- ✓ Up to 1370mm wide
- ✓ Unique messaging

Floor Graphics

Floor stickers can be a great way to get a message out in a unique way, especially in high traffic areas where you may not have walls around to hang signage.

Fully customisable floor stickers with non-slip laminate

CUSTOM STENCILS

- ✓ Reusable
- ✓ Large border will protect overspray
- ✓ Fully customisable

Custom Stencils

Pedestrian walkways and forklift areas can be clearly marked by painting signage to your floor. Creating more visual walkways is one way to make your workplace a safe place. We can design and manufacture custom made stencils in any shape or size.

Ask the team about creating a custom stencil to suit your requirements!

VEHICLE WRAPS

Vehicle Wraps

Vehicle Signage is one of the most popular forms of advertising. Clearly visible and a great way to build your brand. Contact us to discuss design options to suit your vehicle size and style! At Sitemax, we make it *faster, simpler, easier*.

- ✓ Advertise your brand
- ✓ Full Wraps or Single Logos
- ✓ Design options available
- ✓ Fully Customisable

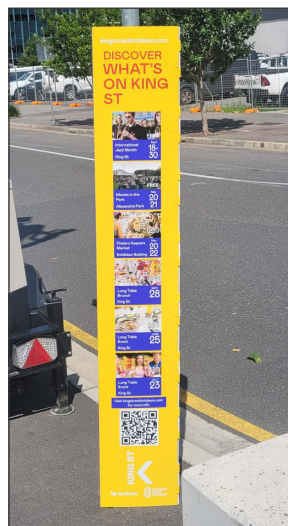

FREE STANDING SIGNAGE

Free Standing Signage

Free standing sign options are endless. Popular for situations where temporary signage is needed that is easily moveable. Short term marketing campaigns is just one example to use free standing signage.

- ✓ Corflute Boxes
- ✓ A Frames
- ✓ Bollard Covers

READY-MADE AND CUSTOM SIGNS

- ✓ Temporary signage
- ✓ Corflute signs eyeleted
- ✓ Double sided options
- ✓ Custom signs designed

Ready-made and Custom Signs

At Sitemax we produce the widest range of safety Signs across every type of media substrate available. Whether your project or budget requires Poly, corflute, metal or alupanel, you can be confident that with our in-house manufacturing process and finishing, your safety signs will go the distance.

We can use your logo, style guide and colours to brand every sign in your portfolio. Customised branding not only helps to identify your projects but with our database and custom catalogues, Sitemax can ensure brand consistency across all your sites. Keep your project and site safe with Sitemax's custom safety sign solutions. At Sitemax, we make it *faster, simpler, easier*.

SITE ENTRY STATEMENTS

Site Entry Statements

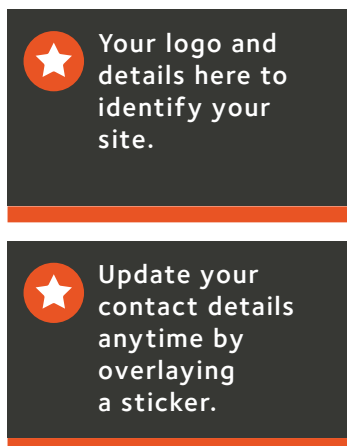

Sitemax have the expertise and resources to provide the signs you need to keep your workers safe on site. Site entry signage not only provides valuable project contact details, it presents a clear and professional image to both visitors and contractors alike, whilst keeping in-line with state & government regulations. By utilising Sitemax's standard templates or alternatively creating a custom sign that reflects your company's style guide, you can easily deliver the right impression from the outset. Why not improve the identity of your site with Sitemax's multi message & site entry signage solutions.

At Sitemax, we make it *faster, simpler, easier*.

- ✓ Choice of substrates
- ✓ Reusable
- ✓ High quality prints
- ✓ Customisable

Corflute Site Entry Statement (900mm x 1200mm x 5mm)

Strong 5mm corflute ensures you get the most life out of your sign.

You choose which signs to display.

Combine your company logo, contact details, and up to nine Warning / PPE notice signs in one banner.

Our site entry banners are heavy duty vinyl, edged and eyeleted on all sides for easy fixing to fences, hoardings or temporary fence panels.

Highlight or change information easily.

REFLECTIVE SIGNAGE

- ✓ AS/NZS1906.1 Class 1W2
- ✓ Durable & weatherproof
- ✓ Multiple substrates
- ✓ Option for watermarks

Reflective Signage

Sitemax are proud to offer a range of reflective sign solutions for the construction industry. Sitemax current offers Class 1W (work zone) grade reflective media in white and yellow base colours along with fluorescent orange and yellow-green options. Ideal for temporary applications, our weatherproof reflective signs have a durability lifespan of 3 to 5 years, colour dependant. Signs can be offered with a customised watermark to denote ownership. Sitemax look forward to expanding our reflective signage offering so don't hesitate to contact us for your next project's requirements.

Safety & Vehicle Management Boards

Have a unique message to deliver to your project team? Why not consider Sitemax's customisable safety & vehicle management boards? These signs can be designed to your project brief and include all corporate branding and industry specific safety messaging. Not only can these message boards incorporate your site specific safety requirements, such as access, no go zones and daily vehicle movements, but they can be interactive with an array of magnetic icons available upon request.

Sitemax's custom designs are not limited to just safety or vehicle management prerequisites. We can tailor concepts to your site's exact requirements whether they be crane booking boards, shift and work rosters or lock-out registers.

- ✓ Safety awareness
- ✓ Vehicle Management Plans
- ✓ Site Metrics
- ✓ Magnets to suit available

[illegible]

Track safety metrics or post safety messages.

VMP	Project Goals	
	Safety	Production
	Environmental	Quality

Magnets for VMP boards also available.

VEHICLE MAGNETS & SITE STICKERS

- ✓ Easily removable
- ✓ High quality long life print
- ✓ Plant and site sheds
- ✓ Reusable magnets

Vehicle Magnets & Site Stickers

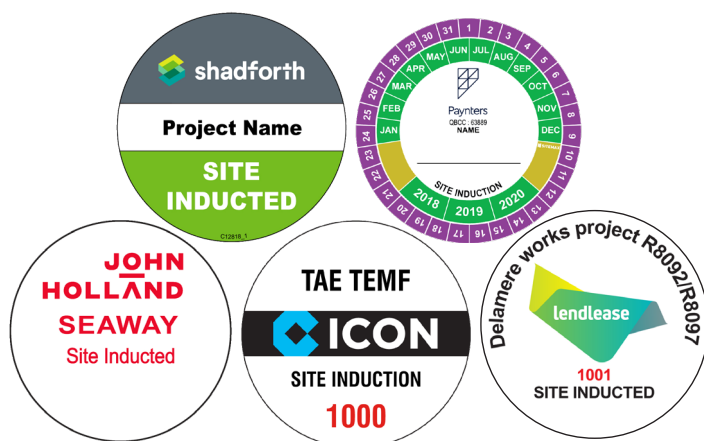

Sitemax's custom signage range is not just focused on large scale printing. We also offer vehicle magnets, machinery stickers and site induction stickers. With our standard templates or your designs, we can deliver fast and effective branding for vehicles and site machinery to assist with easily distinguishing plant and operators on every job site. With our sequential site induction stickers safety officers and site managers can quickly recognise inducted staff and subcontractors on their projects. Our induction stickers can be ordered in small or bulk lots, and if the need arises we can simply recommence a print run from where the last set left off.

Quick and easy branding with vehicle magnets.

Internal or external window stickers for authorised vehicles. Ask us for more information.

Site Induction helmet sticker - can be supplied with or without serial range.

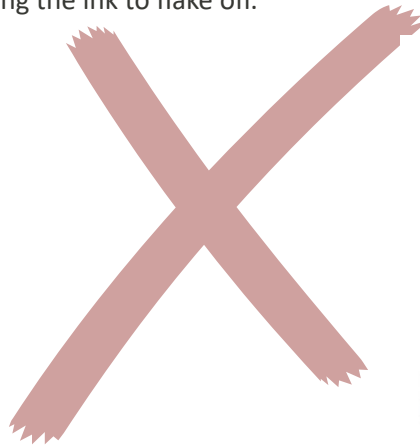

UV VS LATEX PRINTING

Are your signs not lasting?
There may be a reason...

- ✓ Longer lasting
- ✓ Vibrant colours
- ✓ Clear quality
- ✓ Unpixilated print

Why signs printed by UV printers don't last.

UV printers use a UV light to cure the ink. The ink is laid down on the material and the curing process bonds the ink particles together without properly adhering to the substrate. This results in effectively a layer of ink sitting on the material rather than bonding to the material. Once out in the sun, this type of ink will continue to cure, harden and become brittle causing the ink to flake off.

Sitemax's answer for you!

Latex printers use an ecofriendly water based ink. This is cured using heat to melt the particles into the substrate. The remaining liquids in the ink are evaporated to produce a completely dry and odorless print that can be immediately handled. Latex ink is recyclable and doesn't contain hazardous air pollutants meaning it is a safer print method for our people, our clients and our environment.

There is an easy way to check if your signs have been printed using a latex printer, just ask us!

SILTMAX SILT FENCE

- ✓ 100% HDPE Virgin Material
- ✓ Selvedged edging
- ✓ UV Stabilised
- ✓ Printing available

Siltmax Silt Fence

Sitemax's Siltmax range is the premium silt fencing solution for the construction industry. It is the ultimate silt fence material combining virgin high density polyethylene (HPDE) materials, UV resistant properties and a selvedge edge. For maximum site impact why not consider branding Siltmax with your company logo.

Available in green/black or black in a variety of heights and lengths.

Choose to have printed with your logo.

Easily brand your next project site.
