- ✓ Eyelets every 600mm
- ✓ 60% Blockout
- ✓ FlameX option available
- ✓ Reduced wind-loading

1.55m Select Mesh on 1.8m Temporary Fencing

Choosing the right size

Select Mesh and Maxflow Mesh comprise a 50mm reinforced edge with eyelets placed at 600mm intervals. Available in a range of sizes, **the ideal choice for temporary fencing is 1.55m high** as the mesh fits snugly inside a standard 1.8m fence frame (Figure 1), providing a more uniform, secure, and taut finish as no wrapping at the top edge is required.

To place an order with Sitemax, contact our Customer Happiness Team on 1800 007 557 or email your enquiry to sales@sitemax.com.au
